DETAILED ACTION
Non-Final Rejection

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims, as best understood and as detailed in "*Claim Rejections - 35 USC § 112*", are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, it appears that "Glass roof" should be "a glass roof"

Claims 2-7, it appears that "Glass roof" should be "The glass roof" to provide proper antecedent basis.

Claims, elected for prosecution, are confusing and are not clear because claimed limitations, (claims 1-7, an opening, a motor vehicle, a stop, a support surface, and a roof), are not shown in the figures and therefore fails to particularly point out and distinctly claim the subject matter which applicant

regards as the invention. These limitations must be shown on the feature(s) canceled from the claim(s). Applicant is requested to go through the application and ensure that the claimed matter has been described in the specification and shown in the drawing in such a way as to convey to one skilled in the art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7, are rejected under 35 U.S.C. 102(b) as being anticipated by Patz (6,375,254).

Regarding claims 1-7, Patz (6,375,254) discloses in Fig. 1-8 the invention as claimed to include an opening 2, a motor vehicle roof 1, a stop (Fig 5), a glass pane

5, a material 32, an outside surface, a support surface, a calibration stop (Fig 4-5), and a darkening device 6.

Conclusion

3. The prior art made of record in attached Notice of Reference Cited (PTO-892) and not relied upon is considered pertinent to applicant's disclosure. This art of record shows various features similar to the applicant's invention.

4. Any inquiry concerning this communication or earlier communications should be directed to Primary Examiner Kiran B. Patel whose telephone number is 703-305-0254. The examiner can normally be reached on M-F from 8:00 to 5:00. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
